B&W Multifunction Printers

IM 370F IM 460F

Versatile devices for dynamic office environments

The business landscape is constantly changing, and organizations are looking to optimize office space and resources to accommodate hybrid work styles. At the same time, the need for a reliable IT and print infrastructure has grown as businesses seek to seamlessly support digital processes and address security challenges.

This change has created a need for cost-effective and robust workplace technology that streamlines operations, offers the flexibility to easily transition between paper and digital workflows, and provides enhanced data security.

RICOH's latest generation of black-and-white multifunction devices are tailored to support businesses of all sizes in optimizing day-to-day operations with technology that enhances productivity, increases data security, and creates a seamless user experience in a compact all-in-one device.

Experience the versatility of the new IM 370F/IM 460F series — a perfect addition to today's modern workplace that empowers your teams to easily capture, print, share information, and digitize workflows.

Work more efficiently with fast black-and-white print and color scan speeds

Optimize office space with a compact, multifunction device

Protect your business data and intellectual property

Customize options to match your workflow needs with RICOH Smart Integration technology

A comprehensive solution for diverse workflow needs

Enhanced quality, performance, and productivity

Experience the benefits of fast black-and-white print and color scan speeds with our compact letter/legal multifunction device. Enjoy the added convenience of A3 capabilities, allowing you to easily print, copy, and scan A4 pages when needed. What's more, you can personalize and enhance the capabilities of your device with applications and software solutions readily available from the cloud with RICOH Smart Integration.

Improved usability and reliability

Ideal for smaller office workspaces or desktop environments, these latest devices offer space-saving efficiency and low noise levels for uninterrupted focus. RICOH's familiar, user-friendly Smart Operation Panel has been enhanced to provide a more intuitive and seamless user experience with an upgraded OS for better security and usability, as well as improved touch response and faster performance.

Reliable protection of your data

Equipped with the latest controller features, these smart devices provide enhanced privileged account control that gives you more freedom when creating administrator roles. The number of admins has greatly increased, eliminating risks related to sharing IDs. You can also assign different privileges to each role and link it to your user ID system, including Windows and LDAP platforms. Additionally, RICOH's Always Current Technology ensures automatic security and software updates downloaded and installed directly to your device as they become available.

Enhanced sustainability features

As a leader in environmentally-friendly performance, we not only uphold our own commitments but also strive to support your goals. Our new devices utilize almost 17% post-consumer recycled materials for their outer mainframe, while toner bottles are made from 100% recycled plastics. There is zero plastic usage for the toner packaging and the device's optional paper feed unit. The Smart Operation Panel includes new energy-saving features to reduce the operation panel's power consumption by 45% in Sleep Mode.
